

## Proposal Form L Respondent Package Preferences

The RFP includes limitations on the number of packages and the number of locations any individual Respondent may be awarded. In order to take into consideration the preferences of a Respondent, Respondent should list only the packages which are included in Respondents' proposal(s) in order of preference of award. Note the City may take into consideration Respondent's preferences but reserves the right to award packages and locations as the City determines is best for the City and the Airport. You may list only one package per ranking number starting with Ranking #1 as Respondent's most preferred package for award.

Ranking # 1 Package # \_\_\_\_\_
