
Exhibit D.3: Impact to CDA Security and TSA Approval

The Concessionaire must notify the CDA Point of Contact if the project scope of work includes the removal, installation, deactivation, reactivation, or relocation of an access control device or boundary including perimeter fence, perimeter gate or checkpoint, or new openings (temporary or permanent) from the public area to the sterile area/airside, access control door, camera, alarm, or supporting hardware.

If the scope of work includes any of these items, CDA Security must comply with TSA regulations. Conditions lasting less than **(60) days** require a TSA Change Condition, and conditions lasting **(60) days** or longer require a TSA Amendment. Both submittal processes require a TSA approval process of up to **(45) days**. Information on scope will be required by the Tenant to assist CDA Security with the process.

Bureaus may also contacted by phone as listed below:
