

SUSTAINABLE AIRPORT MANUAL GREEN AIRPLANE CERTIFICATION

AA ADMIRALS CLUB & FLAGSHIP LOUNGE

Optimize Energy Performance

- » Reduced energy consumption with the use of Energy Star rated appliances, HVAC equipment, LCD displays, LED lighting, light sensors and timers, and motion-controlled sensors

Water Use Reduction

- » Reduced water consumption by 26% using dual flush water closets, low flow urinals, kitchen faucets, showers, and lavatories

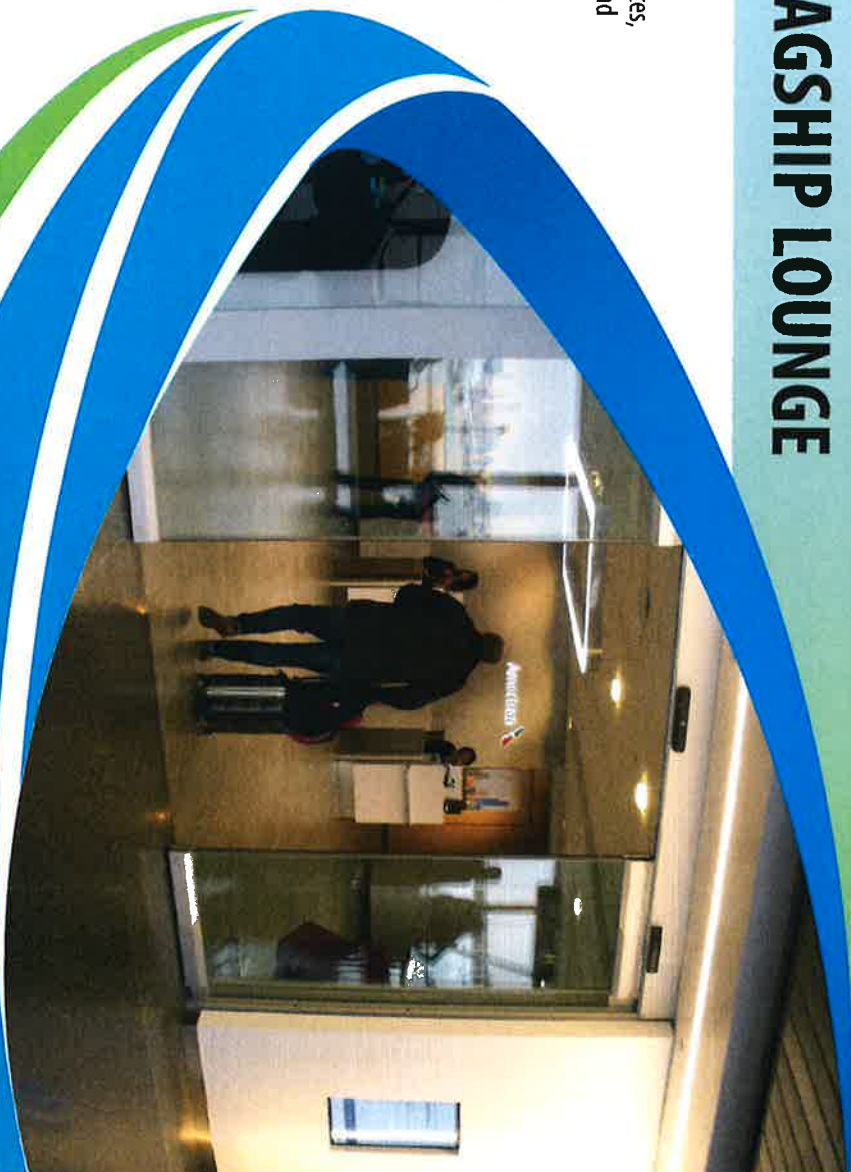

Light pollution reduction

- » All non-emergency interior lighting for all regularly occupied spaces and circulation areas will be automatically controlled to turn off during non-business hours. Manual override capability for after-hours use will be provided.
