

EMERGENCY & STANDBY SYSTEM REPLACEMENT GENERATORS 1-6

Construction Waste Management

- » 90%, or 21 tons, of construction waste was diverted from landfills, primarily wood and metals

Recycled Content

- » 23% of construction materials contained recycled content

Local and Regional Materials

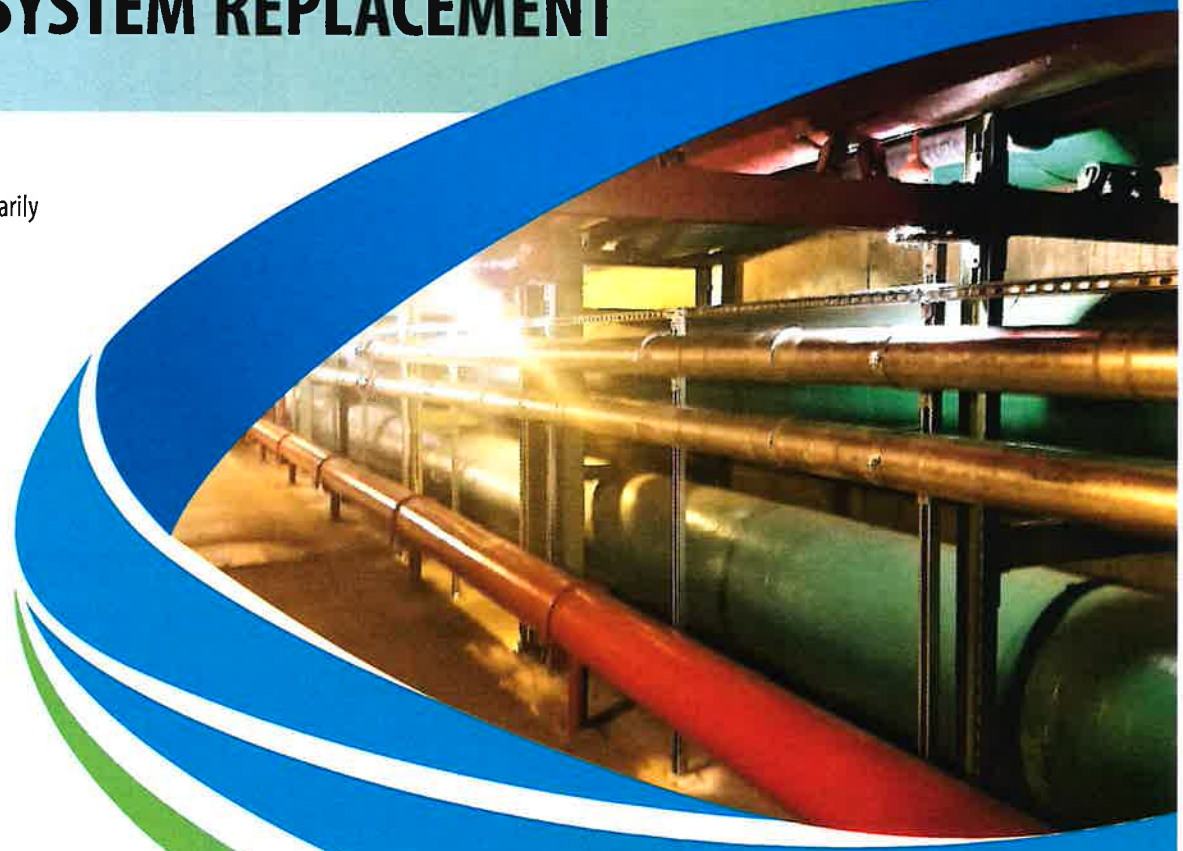

- » 53% of construction materials were obtained within 250 miles of the project site

Water Efficient Landscaping

- » Proposed landscaping selections do not require irrigation other than natural irrigation

Balanced Earthwork

- » 100% of all excavation will be reused on site. All soils will remain on airport property

O'HARE
