

NORTH DETENTION BASIN EXPANSION

Construction Waste Management

- » 100%, or 641,000 tons, of construction waste diverted from landfills including mainly concrete and reclaimed asphalt

Recycled Content

- » 15% of construction materials contained recycled content including utility piping, paving materials and revetment mat

Local and Regional Materials

- » 91% of construction materials obtained locally within 250 miles of the project site, primarily paving materials and piping
- » 100% of construction materials obtained regionally within 500 miles of the project site, primarily the basin liner and revetment mat

Innovation

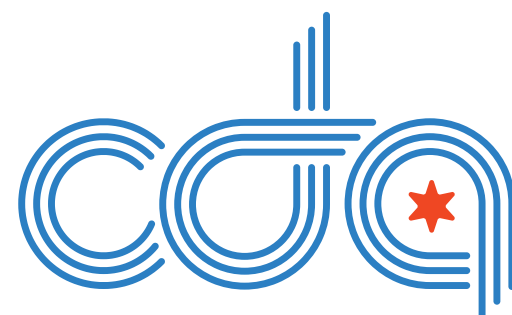

- » Permeable pavement used for upper access road consisted of 2,326 square feet of open grid vegetated pavers

O'HARE
