

RUNWAY 10R-28L SAFETY AND SECURITY

Construction Waste Management

» 100%, or 99,000 tons, of construction waste was diverted from landfills including soils, concrete, and asphalt.

Balanced Earthwork

» 100%, or over 93,000 tons, of excavated earth was reused on-site.

Local and Regional Materials

» 86%, or more than \$985,000, of construction materials were obtained within 250 miles of the site including primarily concrete and asphalt paving materials.

Innovation

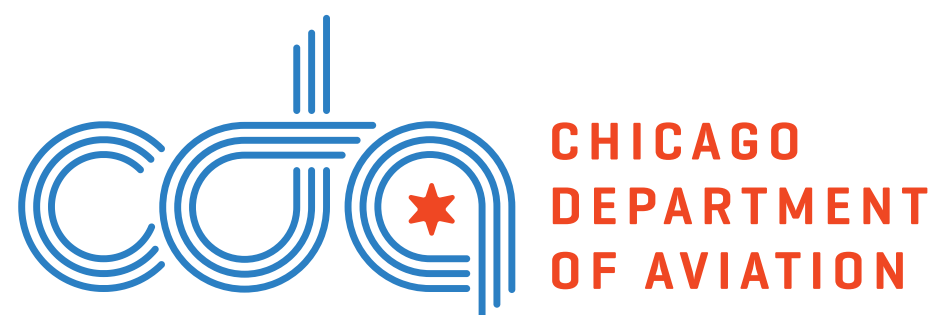

» Warm-Mix Asphalt was used for all pavement surfaces reducing emissions and fuel usage for the paving process.

O'HARE

DESIGNER: **Epstein**
CONTRACTOR: **Walsh**

In recognition of your outstanding leadership in pursuit of sustainability within the aviation industry.
