

# T1 CBRA AND CBIS OPTIMIZATION

## Optimize Energy Performance

» Use of T8 fluorescent lamps and Energy Star Certified HVAC equipment.

## Construction Waste Management

» At least 50% of all construction waste diverted from landfills including primarily concrete waste.

## Low Emitting Materials

» Adhesives, sealants, paints, and coatings have low VOC content.

## Noise Transmission

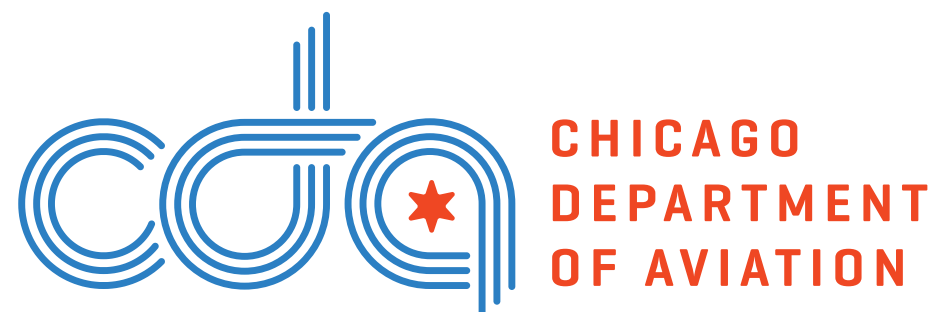

» Acoustical wall and ceiling panels used to minimize noise in employee occupied spaces.

O'HARE
