

## TAXIWAYS K&L

### Construction Waste Management

- » 100%, or 478,000 tons, of construction waste was diverted from landfills including mainly soils, concrete, and asphalt.

### Local and Regional Materials

- » 96%, or \$7.1 million, of construction materials were obtained within 500 miles of the site including primarily concrete electrical ducts and aggregates.

### Innovation

- » Warm-Mix Asphalt was used for shoulder pavement surfaces reducing emissions and fuel usage for the paving process.
