

RUNWAY 10R-28L EAST UTILITIES / GUARD POST

Construction Waste Management

- » 100%, or 149,000 tons, of construction waste was diverted from landfills including mainly concrete and asphalt.

Recycled Content

- » 22%, or \$1.25 million, of construction materials contained recycled materials including primarily recycled content of the concrete ducts, pavement and recycled concrete base.

Local and Regional Materials

- » 95%, or \$5.4 million, of construction materials were obtained within 250 miles of the site including primarily concrete electrical ducts and aggregates.

Sustainable Temporary Construction Materials

- » 78%, or \$96,000, of temporary materials contained recycled content materials, primarily in the temporary barrier walls and AOA fence.

Innovation

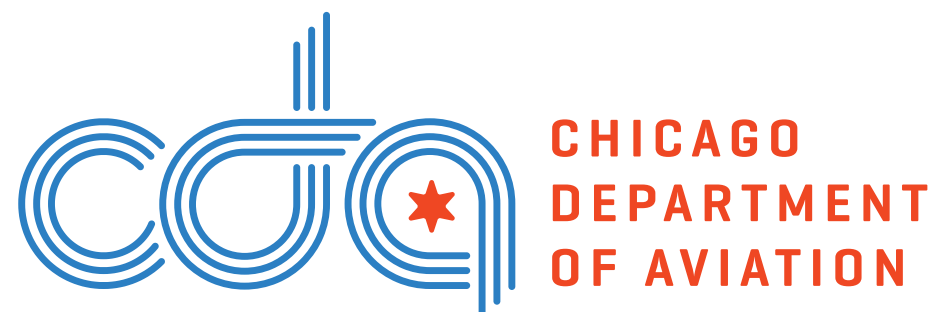

- » Warm-Mix Asphalt was used for shoulder pavement surfaces reducing emissions and fuel usage for the paving process.

O'HARE

DESIGNER: **ORD, LLC**
 CONTRACTOR: **Walsh Construction Company**

In recognition of your outstanding leadership in pursuit of sustainability within the aviation industry.
