

Chicago O'Hare International Airport

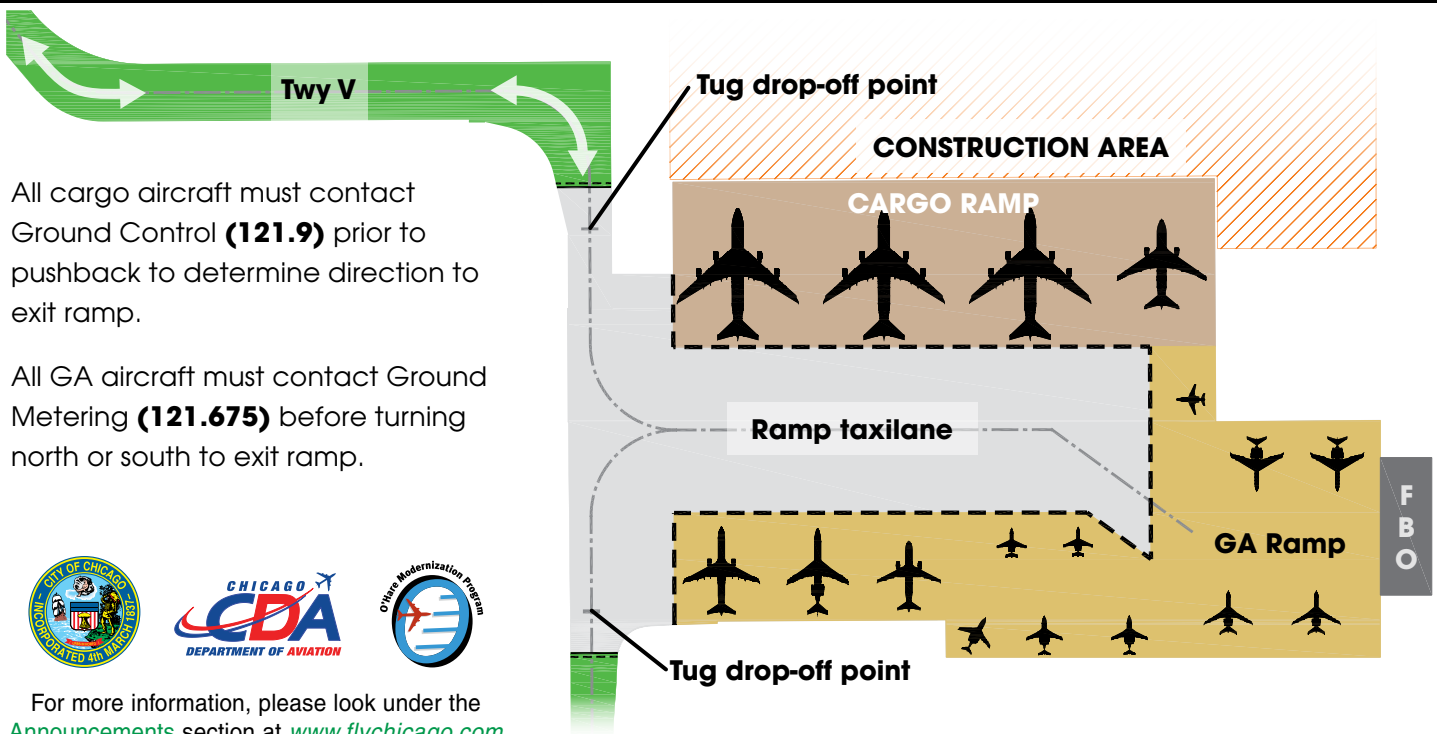

New Taxiway and Ramp Configuration

On **October 20, 2011**, new **Taxiway V** was charted. This taxiway will open on **November 21, 2011**, providing a new north taxiway connection to the joint use Northeast Cargo and General Aviation Ramp. At this time the operational procedures on the ramp area will change.

Northeast Cargo/GA Ramp

New Configuration and Operations Plan

All cargo aircraft must contact Ground Control **(121.9)** prior to pushback to determine direction to exit ramp.

All GA aircraft must contact Ground Metering **(121.675)** before turning north or south to exit ramp.
