

# NEW O'HARE TAXI OPERATIONS

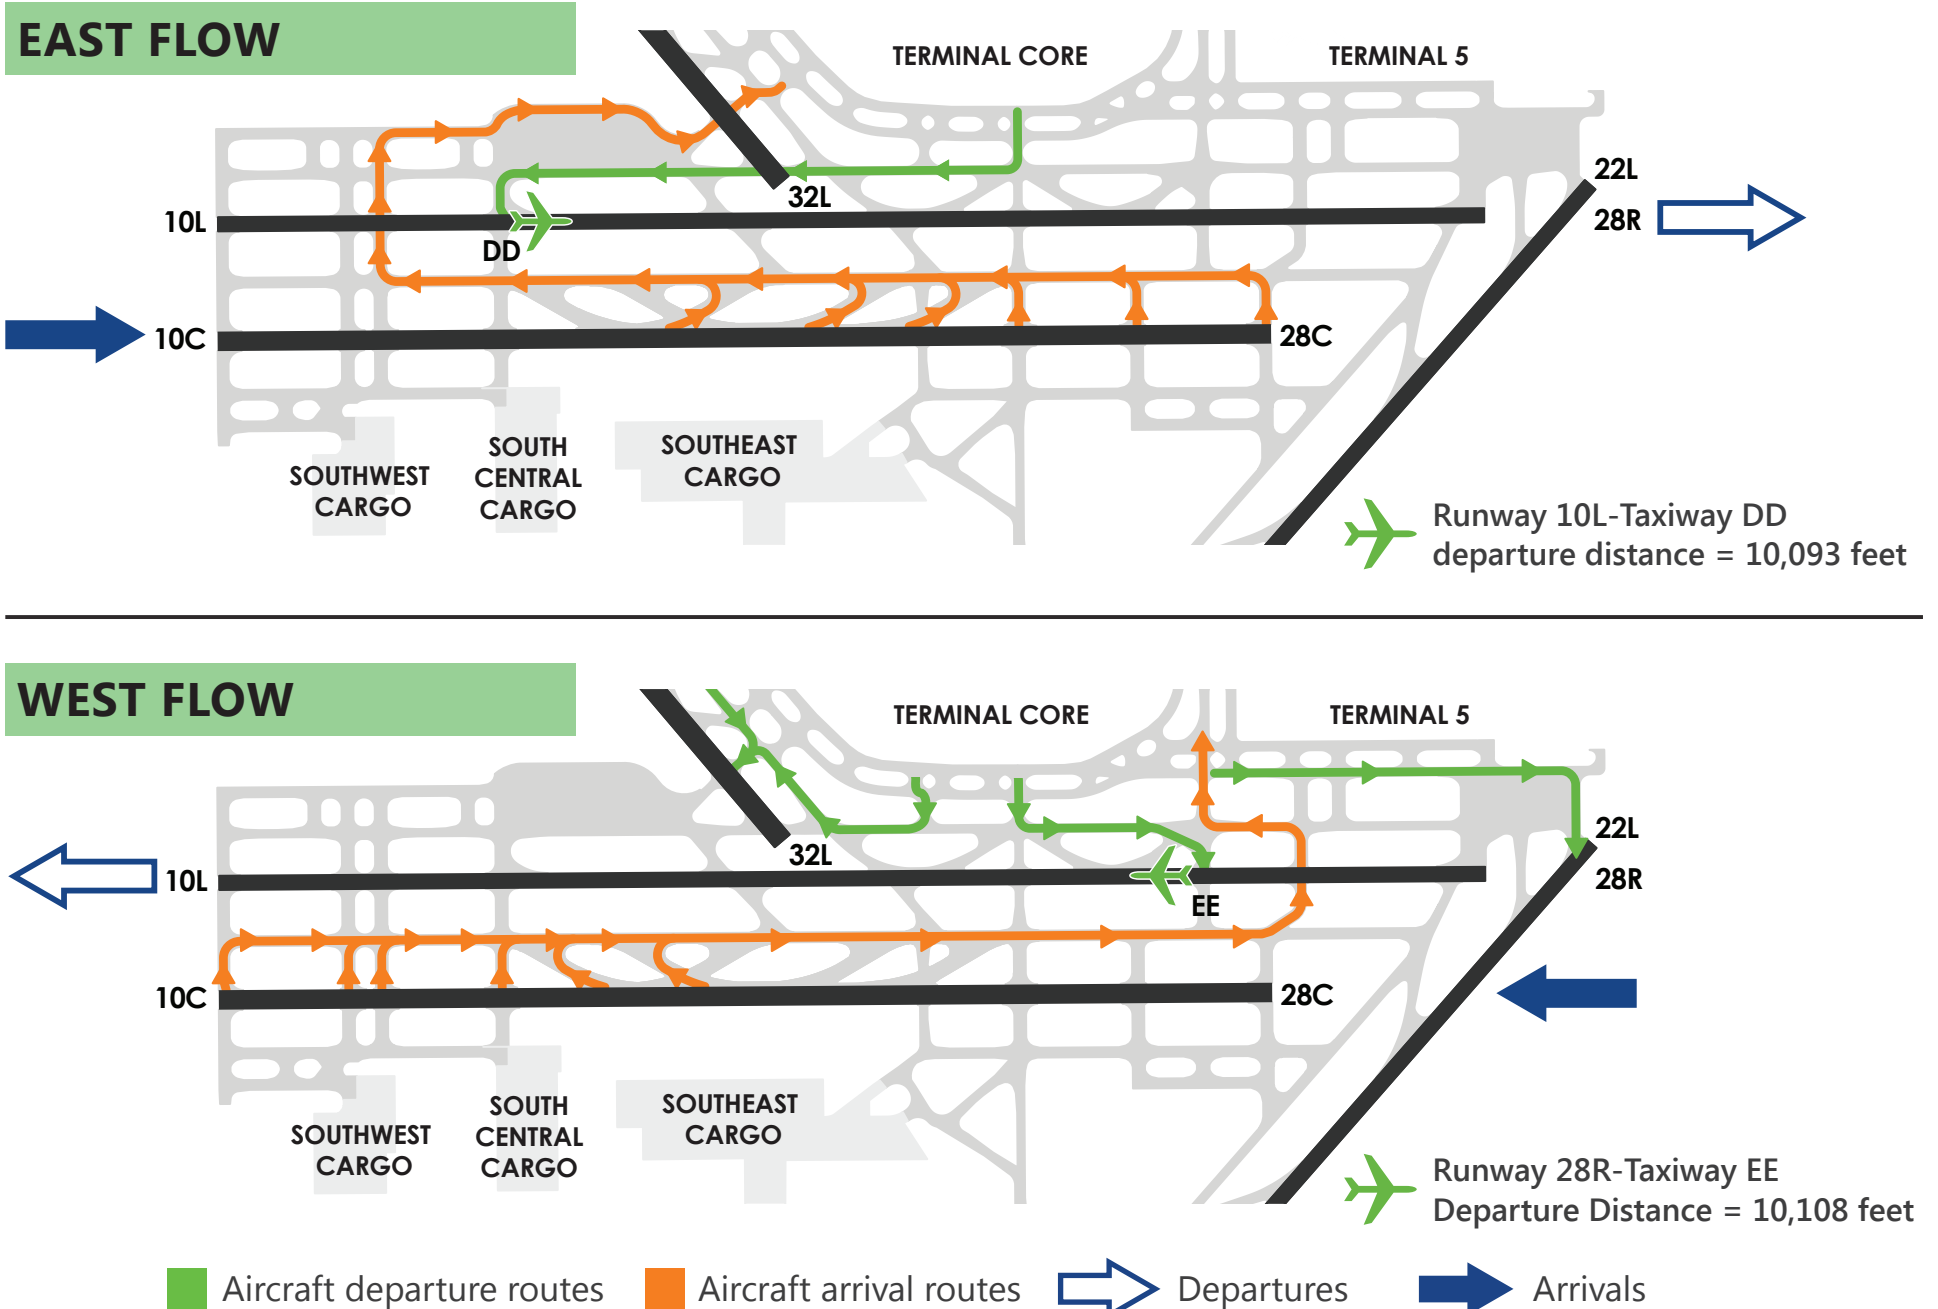

*Flying East & West – O'Hare Becomes the Best*

## OCTOBER 17, 2013

# New Runway 10C-28C Opens

New operating configurations will enhance runway safety by eliminating aircraft crossing in front of departures. Aircraft will depart Runway 10L-28R at taxiway intersection points and aircraft arriving on Runway 10C-28C will taxi behind the departure points. These operations will also reduce delays.
