

WHICH CAREER LOOKS INTERESTING TO YOU?

PILOT

They safely fly the plane. Did you know most flights have two pilots? There are the Captain, who is in charge, and the Co-Pilot, who is called the First Officer. Do you want to learn how to fly?

AIR TRAFFIC CONTROLLER

They help pilots take off, fly and land safely. They also direct planes in the air and keep each plane a safe distance from one another. Can you spot an air traffic control tower at the airport?

AIRCRAFT MECHANIC

They inspect, test, repair and maintain the planes so they are safe to fly. Do you know all the parts of a plane? They know how to fix engines, landing gear, brakes, the controls and more.

SECURITY OFFICER

They keep passengers and employees safe in the airport. One of them checked your ticket when you came through the security checkpoint. Can you spot any security officers with a dog?

FLIGHT ATTENDANT

They keep passengers on the plane safe and help you feel comfortable during the flight. Did your flight attendant show you how to use a seat belt? Did they serve you a snack or drink on the flight?

RAMP AGENT

They load and unload your baggage on the right plane, direct planes on the ground between the gates and runway, and help deice (defrost) the plane when it's cold.
