

The Chicago Department of Aviation (CDA) is implementing a nearly \$400 million capital improvement program over the next three years at Midway International Airport that will significantly upgrade the travel experience for years to come. The **Midway Modernization Program (MMP)** will bring new and expanded concessions, a larger security checkpoint area, and an expanded terminal parking garage.

The CDA will oversee a phased approach to construction on MMP projects to minimize traffic impacts to the surrounding community and to maintain seamless operations at Midway to keep employees and travelers moving through the airport.
